SECRET

OIT Overview Briefing for Mr. Kevin J. Scheid, OMB
19 August 1988

Following is a chronological list of questions and comments made by Kevin Scheid during the OIT overview briefing:

OIT Mission

- Is OIT obligated by statute to funnel FOIA requirements through National Archives?
- How does OIT play into the Corporation for Open Systems (COS)?
- Do we foresee COS coming up with new standards that would force OIT to change?
- Are there any overall standard changes?

Customer Service Group

- (When speaking of outbuildings that we support, he stated that the [redacted] Obviously he had this info beforehand.)
- What is the bulk of CSG's [redacted] resources used for?
- How many mainframes are there?
- Of the 4 SAFE mainframes, are they used for other systems?
- How many different systems do we use?
- Are Wang terminals word processors?
- What is a Delta Data terminal?
- Are SAFE terminals included in our terminal maintenance figures?
- (He thought DI had responsibility for all registries.)

Development Group

- Are we spending alot of resources maintaining custom software?
- How many people are in DG?
- Is there alot of custom software on the various systems, or do we buy off-the-shelf software?

SECRET

SECRET

Engineering Group

- Are telephone systems separate? Are they redundant? (He was referring to the fact that each person has two telephone instruments on their desks.)
- How are the resources allocated to various customers? (He asked this question twice.)
- Do offices have separate resources to cover their costs of using the various systems?
- How do we know if our customers are using the systems effectively and efficiently?
- (He does not think people will use the systems as efficiently if they are free and there is no mechanism in place to monitor usage.)

Management Group

- Have we had any "dial-in" hacker activity? (Pertaining to computer security.)
- How is our property accounted for?
- Has FOIA and Privacy Act requests gone down?

Operations Group

- Are there several geo-station satellites throughout the world?
- Are there any Agency thoughts of putting up our own satellite?

Key Accomplishments

- What did we not accomplish in FY88?
- Were there any procurements falling behind schedule due to lack of resources?
- Is communications software, IBM?
- Is there alot of custom software in communications systems?
- Are there any technical or security problems that have caused our analysts to be late in delivering their product?

(2)
SECRET

SECRET

- Are we satisfied with our downtime?
- What is the amount of downtime that we will tolerate?
- Why is the CRAY computer system round?
- Do we have our own chilling station?

Wrap-up Questions

- Are the Agency customers satisfied with the results that we are getting from our investments in the various systems?
- Why is D/OIT not satisfied with what the systems are now delivering?
